Basement Contractor Interview Questions

When it comes to basement projects, choosing the right contractor is one of the most important decisions that you have to make. Basement Masters understands this, which is why we have prepared a full list of questions for you to ask your contractor during your next in-house interview.

1. How long has your company been in business?
2. How is your company organized and what is your service area?
3. What types of construction projects do you specialize in?
4. What sets your company apart from other contractors?
5. Have you ever operated under another name?
6. What type of license do you have? What is the number?
7. Are you insured? If so, what kind of insurance, and for how much?
8. Do you have design services available?
9. What sort of financial plans do offer?
10. What is your warranty?
11. What is your BBB rating? Do you have any complaints?
12. Have you ever won any awards?
13. May I have a list of references for projects you have completed that are similar to my own?
14. Do you need any special permits for my project?
15. Do you have employees, or do you hire subcontractors?
16. How do you manage projects? Who will be in charge?
17. What are your hours of operation?
18. What is the typical procedure for an average job site?
19. Is there an official contract for the project?
20. What is your payment schedule?
